

# DE BUNKER

## Newsflush

### Message from the board

Dear people from Dijkgraaf,

The 6th period has arrived and with this comes the start of the Summer. Our parties for this period are great ways to celebrate the warm weather! With that, we also welcome a new board member named Davy! He will be part of the party comitee, trying to find us the best themes for a party!

### Partyplanning

As written above, our parties will be a nice addition to a great summer. We kick off with a shotnight in week 1. This night you can buy a ticketstrip for 5 euros, and after signing off 3 shots of choice you get a fourth one for free!

The bunkernight in week 2 will be hosted by Student Alliance Wageningen, they will bring all their party people to town.

In week 4 there might suddenly be a pool in the Bunker! A pool party is of course one of the most important things in summer, so we are hosting it. The special is going to be the amazing sex on the beach cocktail, and you even receive a free condom when ordering this great drink!

And last but definitely not least, in week 6 we will host the famous empty-the-beertank! This time, 3 beer will only cost 1 coin! That should be an incredible way to finish this year.

### Week

### Special
